The Safelists are sources to get leads for your primary business as back-end follow ups. The screenshot shows a web browser window with the address bar displaying <http://www.cdanca.com/Renegade/>. The page content features a red arrow pointing to the top left corner of the main content area. The main heading is "7 Great Lies of Network Marketing" in red, with "(Free eBook)" below it. To the left is an image of a red book cover with the same title. Below the main heading is a smaller image of a book cover titled "Using And Understanding TRAFFIC EXCHANGES". The text on the page reads: "What do the mlm gurus know that you don't? Find out how they play by a different set of rules than everyone else... and... how your company teachings are actually causing you to fail!". At the bottom, it says "In addition get this great eBook about Using and Understanding Traffic Exchanges". The Windows taskbar at the bottom shows the "Inicio" button and several open applications.

You can find this one at:

I use this one for my Traffic Exchanges navigation because I am giving a free but valuable eBook, and one of them is related to learn how to use Traffic Exchanges. After this when I have the lead's Names and e-mails I can sent them two or three interesting tips of freebies then sell them some other interesting stuff for improve their online business.
